## Ti Dashboard

The Ti Dashboard provides over 60 charts and tables of the most important macro and industry specific indicators from around the world, keeping you right up to date with the latest trends and developments.

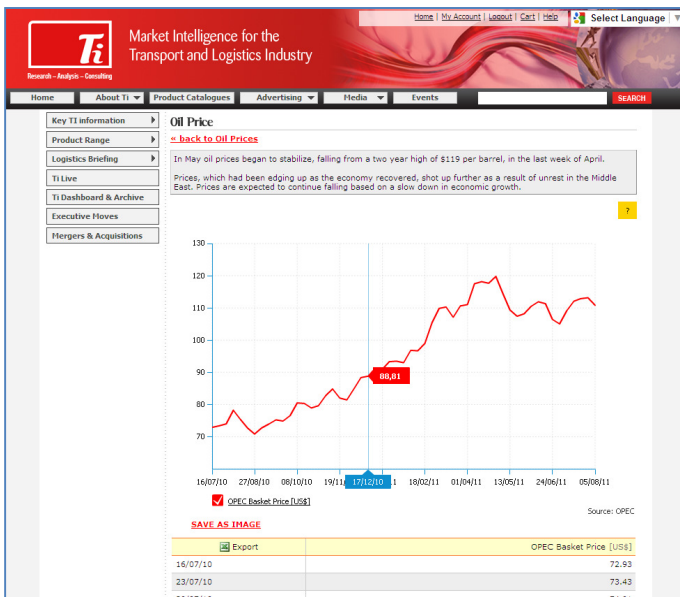

Subscription to the Ti Dashboard will give you access to data sources such as:

- Macro-Economic indicators
- Export & Import data
- Oil prices
- Industry vertical sector data
- Sea freight
- Air cargo
- Overland (encompassing Intermodal/rail and road freight)
- Warehousing

The Ti Dashboard uses the latest interactive charting functionality and allows subscribers to download data. Each chart includes historical data for the past five years and is kept up-dated by Ti's team of researchers and analysts.

In addition to the data, each chart contains commentary on key trends.

Ti Dashboard offers you the ability to download data at the touch of a button wherever you are travelling.

It is ideal for use in presentations, business plans or internal briefing reports to senior management.

In summary:

- Ti Dashboard is continually updated
- Contains historical/latest data
- Covers key industry/economic indicators
- Features interactive charting
- Provides commentary on recent trends
- Enables download of charts and tables

Ti Dashboard charts and tables include:

New charts are added on a regular basis making this the most comprehensive global data tracker available in the market today.

### Logistics Briefing Archive

Access to the Logistics Briefing archive gives researchers, consultants and analysts access to around 2,000 briefs as well as over 6,000 news items.

Each brief contains in depth analysis of events and developments in the industry covering the logistics, express, forwarding and road sectors.

Recent Briefs include:

- **Ten reasons why the financial crisis won't impact the global freight industry**
- **Optimism remains in US trucking sector**
- **Forwarders prosper in the face of faltering growth**
- **European logistics operators enjoy strong first half**

The Logistics Briefing archive allows you to:

- Track the acquisition strategies of competitors and suppliers
- Gain an insight into the strategies of the main logistics operators
- Respond to the latest industry trends
- Identify threats or opportunities from industry developments.

Within each brief you will find information and insight provided by Transport Intelligence's industry experienced analysts, unavailable from any other sources.

The briefs place industry events within their context and contain not only news but interpretation, background and data from Transport Intelligence's own knowledge resource.

The screenshot displays the Ti Dashboard website interface. At the top, it features the Ti logo and the tagline 'Market Intelligence for the Transport and Logistics Industry'. Below this is a navigation menu with options like Home, About Ti, Product Catalogues, Advertising, Media, and Events. The main content area includes a search bar, a news ticker with headlines such as 'logistics initiates expansion of...' and 'Global Semiconductor sales grow 3.7% in first...', and a sidebar with navigation links. The central content area highlights a 'Latest Feature' titled 'Kuehne + Nagel tops ranking of largest freight forwarders' and a 'Latest Briefings' section with several article teasers, including 'Ten reasons why the financial crisis won't impact the global freight industry'.
