Transport Intelligence

Transport Intelligence- Supply Chain Solutions

Transport Intelligence is the leading source of research and analysis dealing exclusively in the express, logistics and supply chain sectors. In addition to producing market leading research reports and web-based intelligence portals that are up-dated daily, we also provide tailored research and consultancy services.

Our products and services are used by the world's leading logistics providers, suppliers, consultancies and banks as well as many users of logistics services.

Market Leading Industry Reports

Transport Intelligence's research analysts are industry experienced practitioners, having worked extensively within the mail, express and logistics industries. This enables them to develop wide-ranging, industry leading research reports across the huge breadth of global transport and logistics markets. Below is a small sample of our extensive range of research reports.

<p>Asia Pacific Transport and Logistics</p> <p>Global Freight Forwarding</p> <p>European Vertical Sector Logistics</p>	<p>Middle East Logistics</p> <p>European Road Freight</p> <p>Global Contract Logistics</p>

Ground Breaking Intelligence Portals

To provide its customers with continuing competitive advantage, Ti has combined leading industry knowledge with the latest technology by creating exclusive web based intelligence portals, accessible at the click of a button, from anywhere in the world. Ti's expert team of researchers update the portals daily, providing exceptional industry insight and analysis.

www.GSCIntell.com provides a complete research solution on the global supply chain industry, examining all aspects of this dynamic market sector.

www.supplychainleaders.com delivers critical competitor intelligence on the world's diverse range of supply chain companies.

Tailored Consultancy

Ti undertake tailored research projects for many of the world's leading logistics suppliers, consultancies and banks as well as users of logistics services. Transport Intelligence is able to provide market information, analysis and insight to address companies' specific market research needs, ranging from the strategic to the tactical.

FREE Logistics Briefing Service

Ti's news and analysis service, *Logistics Briefing*, is widely recognised as the most incisive, insightful and comprehensive briefing service in the industry. Please visit our website, www.transportintelligence.com, to start receiving this FREE informative service, directly to your inbox.
